Experience

TUTOR | OCTOBER 2024

- **Responsibilities:** Tutor young students in the fundamentals of programming using the Java language. Develop lesson plans and activities to engage students and enhance their understanding of programming concepts. Track student progress and provide constructive feedback to help them improve. Foster a positive and encouraging learning environment.
- **What I Learned:** Through this role, I've refined my ability to break down complex programming concepts into digestible lessons, enhancing my communication and instructional skills. It has also deepened my understanding of Java by explaining concepts to beginners.
- **Skills Developed:** Communication, lesson planning, student engagement, Java programming.
- **Future Development:** I plan to continue expanding my tutoring methods by incorporating interactive tools and exploring additional programming languages to teach.

TECHNICAL VOLUNTEER | GOOGLE'S DEVELOPER FESTIVAL | NOVEMBER 2024

- **Responsibilities:** Provided technical support and troubleshooting assistance during the event. Assisted attendees with setting up development environments and resolving technical issues. Contributed to the smooth operation of workshops and presentations.
- **What I Learned:** This experience enhanced my problem-solving skills and exposed me to diverse technical environments and setups. It also provided valuable insight into large-scale event coordination and the importance of clear communication in high-pressure situations.
- **Skills Developed:** Technical support, troubleshooting, event coordination, communication.
- **Future Development:** I aim to continue volunteering at tech events to gain more hands-on experience and improve my ability to quickly adapt to new technologies and environments.
